ROL-PHS Band Gets USA Recognition

The Pahokee High School Band, Bandmaster Robert O. Lampi, director for the second consecutive year has been accorded national recognition by the approval board for First Chair of America, the national yearbook for outstanding high school bands, orchestras and choruses, which has again recommended the PHS Band for presentation in the 1958 edition of First Chair of America.

This nationally distributed yearbook presents only those bands, orchestras and choruses that maintain the highest national standards. Natural Gas For State Next Fall

ST. PETERSBURG — Florida plants and homes should be getting natural gas next fall, and it will give both industry and home owners millions of dollars, according to a pipeline executive.

Paul Herzog, vice president of Houston Texas Gas and Oil Corp., speaking before the annual meeting of the Florida Home Building Association, estimated natural gas will save Florida home owners \$12 million a year, and will save industry many millions more.

Herzog said the main line will run from Baton Rouge, La., to just south of Miami, with a branch line to the Florida west coast. These lines should be completed by September, 1958, he predicted, with connections to homes coming somewhat later.

Firemen Take Part In Fair Tourney

Volunteer firemen from all parts of the county have been invited to compete in a Fireman's tourney as one of the features of the County Fair which will open the first of January 24th, according to Lamar Allen, secretary manager of the Fair.

Members of more than 20 volunteer companies in the county have been advised of the proposed tournament, which will include a parade around the Speedway track, pumping and ladder climbing contests. The volunteers have been asked to return entry blanks as soon as possible so that a general meeting of contestants may be called.

Tournaments of this kind have been among the most popular features of County Fairs in other states, but will be new to the Palm Beach County event this year. Manager Allen said. Awards will be given for the best appearing company, most men in the parade line, and the company from the longest distance.

In the pumping contest, the men will start their truck, make a short run on the track, connect a suction line and hit a target with a stream of water. In the ladder event, after a short run with the truck, the men will take a ladder from the truck, place it against a platform and one member will release a signal from the top of the platform.

There will be a grand trophy for the company scoring the most points in the competition. It is planned that this will be a perpetual trophy to be held for one year. Cash prizes will be given for the main events, in addition to point awards. The volunteer firemen will also have an opportunity to obtain funds for their treasuries through advance sale of tickets for the tournament.

Vero Beach Visits Pahokee Tonight

The Pahokee Blue Devils, rebounding from their 6-0 loss to Stuart last week, will find the visiting Vero Beach Indians a tough hurdle as the two teams tangle on Lair Field here tonight.

Coach Tex Warrington's Indians have met defeat so far this season only by the hands of the Suncoast Conference leaders, Clewiston and Pompano, in close games by a one-touchdown margin in each contest. At present Vero, with a 3-2-0 conference record, is tied with Fort Pierce for fourth place in the league, and Pahokee is a notch behind in the conference race with a 2-2-0 record to date. In all games played the Indians have won four and lost two, while the Blue Devils have both won and lost three contests.

Well aware of the power that the Cal Cox-Stevie Calhoun combination generates in the Vero backfield, Coach Web Fell has been stressing defense in practice sessions this week. He reports improvement in the work of Glenn Levins as a line backer, also that of Don Thompson on defense. Robbie Walker showed improvement in both offense and defense.

Cinematic Chatter

By Malcolm Millar

Hello everybody! Some actors ease into the public consciousness and achieve prominence over the course of, say, a dozen or so roles of gradually increasing importance. Others burst into prominence in a single stroke, with the brilliance of a streak of lightning. Vic Morrow is in the second category. He played the knife-happy young hoodlum in "The Blackboard Jungle," and established himself in the public consciousness with sudden and dramatic impact. Vic Morrow was born in Asbury Park, New Jersey, and after graduating from high school did his service stint in the Navy. Following his discharge he studied law, but became more interested in extracurricular dramatic groups than in Blackstone. When he was invited to appear in the International Drama Festival in Mexico City College he accepted and played a role in "The Little Foxes," the United States entry. And at the close of the festival, he enrolled in Mexico City College and continued to study drama. He returned home a year later and played in stock and repertory companies in Baltimore and Philadelphia. Then he enrolled for a two-year course at the actor's workshop in New York, studying under Elia Kazan. During this period he turned down all theatre and television work, and supported himself by driving a taxi. His movie debut came about as a result of a talent search by the producers of "Blackboard Jungle." Vic, who had just finished a ten-week tour in "Streetcar Named Desire," was tested, and won out over 247 other young actors for the role. See you at the movies—Mal.

People Of All Ages Need Meat In Diets For Good Nutrition

The Florida Beef Council has been promoting the consumption of more beef, which should benefit not only the Florida beef industry but those who eat beef as well. And a University of Florida research worker says proper nutrition—which includes meat in the diet—is just as important as the development of H bombs and jet airplanes.

Dr. A. Z. Palmer points out that the "coffee and" breakfast so common throughout this county today violates one of the basic principles of nutrition—each meal should be balanced. He adds that a well balanced meal is built around the meat dish or the protein food. Here are some highlights of recently reported nutritional research dealing with the value of meat in the diet, as enumerated by Dr. Palmer.

Meat is an important food for school children; it supplies protein which helps to build resistance to infections. "You may send a child to school well filled, but it takes meat to stick to the ribs and keep him from being hungry by mid-morning," says the animal scientist.

Meat supplies ample amounts of iron and protein, which help to build healthy blood and prevent anemia. All red meats are important for babies, teen-agers and older people. Liver is one of the best sources of iron and is rich in other dietary essentials.

Meat is important to the person who has undergone an operation. It promotes speedier healing and restores lost blood. Meat is now included in the diet of patients with liver and kidney diseases. Previously it was thought that meat causes damage to these organs, but now it is known that meat contributes to the repair of liver and kidney damage.

Older people whose diet contains more beef, veal, pork and lamb are in better health and more alert and active than those whose diet contains less meat.

Meat is unmatched by any other food in satisfying hunger, and its sticks to the ribs.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

All-Cargo Service Is Inaugurated

MIAMI—Delta Air Lines inaugurated an all-cargo service last weekend, linking Florida with more than 50 Northern and Western cities and putting the California coast only 24 hours away.

There will be nine daily departures from Miami hauling freight to Delta-served cities. American Airlines is also coordinating its all-cargo service from Dallas, Texas, with Delta flights, providing 24-hour service between Florida and California for the first time.

Manufacturers in outlying sections will be able to utilize the cargo service through "Truck-Air", a tie-in service between the airline and motor freight lines.

It Is Unlawful For Any Person Or Persons To Engage In Business Under A Fictitious Name Unless The Name Is Registered

The fictitious name statute was recently changed by the 1951 Legislature and the News has the necessary forms for proper registration and advertising.

The charge for advertising the notice the necessary four times is \$15.

As amended by the 1951 session, the law reads as follows:

"It shall be unlawful for any person or persons, as defined herein, to engage in business as herein defined, under a fictitious name as herein defined, without and unless said fictitious name shall be registered with the clerk of the circuit court of the county where the principal place of business is, which registration shall consist of filing with the clerk aforesaid an affidavit signed by all interested persons, stating under oath the names of all those interested in the business enterprise, the extent of the interest of each, and the fictitious name under which said business is carried on. Said registration may not be made until the person or persons desiring to engage in business under a fictitious name shall have advertised his or their intention to register said fictitious name at least once a week for four (4) consecutive weeks in some newspaper as defined by law in the county where said registration is to be made, and said registration shall not be accepted by the clerk of the circuit court except upon receiving proof of such publication."

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25¢ a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$30,000.

Now even better! Invest more in Savings Bonds!

Vero Beach Visits—

Freshman year. Quarterback Richard Shackford is capable of opening up the game with some aerial shots if the Blue Devils' ground attacks start to jell. The only change Pell is making in the Blue Devil starting line-up this week is in the backfield where Robbie Walker starts at right half instead of Wayne Unwin.

During the halftime show a fire baton twirling performance will be presented by majorettes of the Pahokee High School Band. Featured will be a fire baton twirling duet by Nancy Thomas and Cyndy Friend and a solo by Glenda Faye Russon.

Originally this was the last home game on the Pahokee schedule, however, following a decision made Tuesday by a Suncoast Conference committee that the Clewiston-Pahokee game, legitimately cancelled by FHSAA on Sept. 26 because of a flu epidemic at Pahokee High, must be re-scheduled and played for either team to be eligible for the conference championship this fall, officials of both schools have started negotiations to have the game re-scheduled. If Clewiston is able to re-schedule its non-conference game with Naples, the Pahokee-Clewiston game will be played at Pahokee on the night of Nov. 22; if not, it will be played here the night of Dec. 6, according to Brooks Henderson, principal of Pahokee Schools.

LEAN, LOW LINES SPARK CHEVROLET BEAUTY

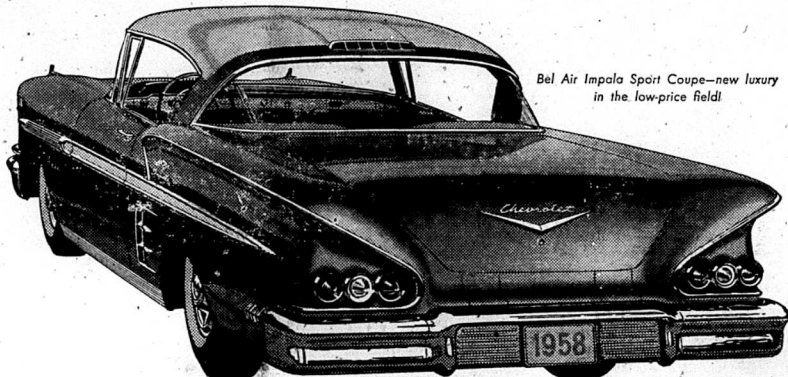

Chevrolet stylists have taken full advantage of nine inches in added length to mold low, fleet beauty into their 1958 models, as shown by this view of the Bel Air sport sedan. Strong eye-appeal is found in the modish grille, the dual headlamps and low, flat hood. Notable also is an unusual Sculpturamic styling which supplies an air of distinction. A new engine, new frame and two new suspension systems are only a few of the major chassis advances. Station Wagon, Bel Air, Biscayne and Delray Series are offered.
